12 Terminable Interest (QTIP) Marital Deduction. (See instructions for line 4 of Schedule A.)

If a trust (or other property) meets the requirements of qualified terminable interest property under section 2523(f), and

a. The trust (or other property) is listed on Schedule A, and

b. The value of the trust (or other property) is entered in whole or in part as a deduction on line 4, Part 4 of Schedule A,

then the donor shall be deemed to have made an election to have such trust (or other property) treated as qualified terminable interest property under section 2523(f).

If less than the entire value of the trust (or other property) that the donor has included in Parts 1 and 3 of Schedule A is entered as a deduction on line 4, the donor shall be considered to have made an election only as to a fraction of the trust (or other property). The numerator of this fraction is equal to the amount of the trust (or other property) deducted on line 6 of Part 4, Schedule A. The denominator is equal to the total value of the trust (or other property) listed in Parts 1 and 3 of Schedule A.

If you make the QTIP election (see instructions for line 4 of Schedule A), the terminable interest property involved will be included in your spouse's gross estate upon his or her death (section 2044). If your spouse disposes (by gift or otherwise) of all or part of the gualifying life income interest, he or she will be considered to have made a transfer of the entire property that is subject to the gift tax (see Transfer of Certain Life Estates on page 4 of the instructions).

13 Election Out of QTIP Treatment of Annuities

Check here if you elect under section 2523(f)(6) NOT to treat as qualified terminable interest property any joint and survivor annuities that re reported on Schedule A and would otherwise be treated as qualified terminable interest property under section 2523(f). (See instructions.) Enter the item numbers (from Schedule A) for the annuities for which you are making this election >

SCHEDULE B **Gifts From Prior Periods**
